Creating Places to Belong

Over the last year, we dug in to get a better understanding of what it takes to create equitable, inclusive, flexible, and safe spaces within workplace, health, and education environments.

We heard a consistent message through our research, conversations, and reflections. We came to understand that creating a place where people feel like they belong is more than providing a workspace.

It's about connecting to a greater purpose and supporting individual needs.

A letter FROM THE PRESIDENT

Welcome to the 2023 IIDA New England Design Awards. First and foremost, I would like to thank our Chapter sponsors, they help a lot of IIDA NE events become a reality. Special shout out to the Design Awards Committee. We are very thankful for your dedication and hard work organizing and putting together this event that celebrates design. Design Awards highlights best practices and recognizes exemplary projects in all areas of design and construction. It brings together and celebrates members of the design and construction community, who work together to improve the built environment by shaping the quality of life through design excellence.

Many wonderful design projects will be recognized tonight. We can take great pride in the designs that are recognized and even greater satisfaction that these designs have solved a problem, have honored their settings, have responded to the demands for energy efficiency, have evolved through the frustration of the code compliance process, have responded to regulations and ever escalating construction costs, all in a wonderfully significant way. In addition to the winning entries, there are dozens of wonderful designs that may not necessarily be recognized with awards tonight but the design team involved in these efforts is to be commended.

This year we have 118 professional entries and 14 Student entries. We have 3 new categories - Conscientious Design, Health & Wellness - Small, Senior Living (category brought back after a hiatus).

I am looking forward to this upcoming year as a Chapter. My hope is that our Chapter becomes a place where designers and industry members alike feel connected, encouraged and supported; knowing that our Chapter is providing them with the tools they need to succeed. At a time where it honestly feels like we are all running a million miles an hour I hope that our events give you time to recharge and reconnect with your peers.

Thank you.

Deepa Venkat, President, IIDA New England Chapter

2023

Nicole VOSS

Isgenuity

AIA, LEED AP, WELL AP

Nicole Voss is the Director of Sustainability and an Associate Principle at isgenuity, which is a mission-driven architectural firm focused on contributing to humanity in ways that demonstrate a commitment to equity and sustainability. Nicole is dedicated to advancing environmental justice through the firm's work across healthcare, higher education, and life science sectors, as well as in her work outside of the firm. Nicole is pushing to lower greenhouse gas emissions associated with the built environment in her role as a co-chair of the CLF Boston / Northeast Hub, and advocating for regenerative design as part of the New England Living Futures Community.

Advocacy UPDATE

What has happened in 2023?

- WE Refiled our Bill in **January 2023**
- WE Attended and testified at the Consumer Protection and Professional Licensure Committee Hearing on **June 21, 2023**
- On **June 29, 2023**, the Consumer Protection and Professional Licensure Committee favorably reported S2408 to the Senate Ways and Means Committee.

What is next?

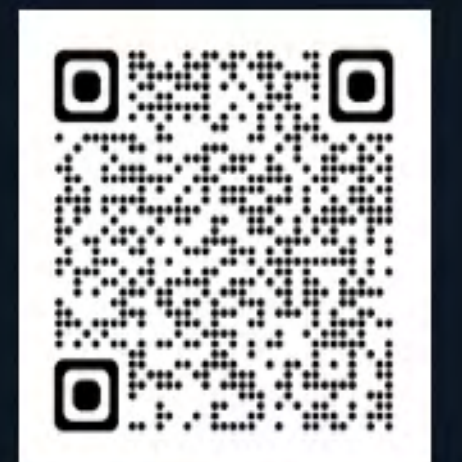

- The bill is now in the hands of the Senate Ways and Means Committee. We are hopeful they will review it this fall and pass it along to the Senate floor for a vote. If it is approved, it will then go to the House floor for a vote. The last step is having it sent to the Governor for approval.

How can I help?

- Write an email in support of our bill to your Legislator
- Contact your Senator to support Interior Design in MA via p2a

Find your Legislator
